

# Meter ordering form

Please complete all the fields on this form to avoid any delays with your order. We won't be able to place the order if all the Project Details fields aren't completed.

We'll confirm the order within 5 working days of your request. Once the order is placed, we won't be able to change any details, so please ensure all information is correct before submitting the form.

We aim to deliver your meters within four weeks of receiving your order. Meters that are 50mm or larger can take up to 12 weeks for delivery. We're only able to provide a maximum of 200 meters per order and do not deliver outside the Thames Water region.

We're unable to hold stock for you, so please make sure you only order meters when you need them, or as your storage space allows.

Please email this form to [developer.services@thameswater.co.uk](mailto:developer.services@thameswater.co.uk)
